EDUCATION

Carnegie Mellon University
Pittsburgh, PA | May 2019
BCSA in Computer Science and Art
Minor: Human Computer Interaction

Expected University & College Honors
Dean's List: Spring 2016, Spring 2018

Academic Studies Abroad

London | Summer 2017
University of Arts London LCC

Tokyo | Fall 2017
Temple University Japan

SKILLS

Design
Rapid Prototyping, Wireframing,
Interaction Design, Graphic Design,
Game Design

Software
Unity, Sketch, Adobe CC,
Rhinocerous, Wordpress

Development
Python, C++, SML, Swift,
JavaScript, Arduino, Go, HTML

Languages
Bilingual in French and English
Basic Mandarin, Basic Japanese

COURSEWORK

Human Experience in Design

Interaction Design Overview

Designing Human-Centered Software

Game Design and Development

Graphic and Media Design

Rapid Prototyping of Computer Systems

E-Learning Design Principles & Methods

Design Large-Scale Learning Systems

EXPERIENCE

Freelance Design and Development, Muzeek
May 2017 & Summer 2018
- Worked with the founders to design a mobile app which lets users add automatically generated soundtracks onto videos, currently in the app store (May 2017)
- Redesigned and implemented adaptive interactive website with custom JavaScript (Summer 2018)

Freelance Design, iProdUSA, VIT, Harmony Dance
June 2017 - present
- Design websites and apps for various customers ranging from technical startups to production companies

UX Game Development Intern, Bandai Namco
Summer 2016
- Created UX/UI designs focusing on originating effective designs to deliver information without overwhelming the user
- Played a key role in keeping fluid communication and consistent goals between the design, art, and developer teams

UX Feedback Intern, Trance App
Summer 2015
- Consulted on the UX/UI of the mobile app and new ideas for further improvement

PROJECTS

Invoicematic, Capstone Project
Fall 2018 - present
- Conception, marketing, implementation of a smart, AI powered time tracking and automatic invoicing solution for freelancers.

Environmental Display, Interaction Design Course
Spring 2018
- Designed a data-driven environmental display providing flight, train, and ferry travel information clearly and effectively.

VidWiz, Fundamentals of Programming Course
Fall 2015
- Created a Python application that analyzes video characteristics to produce a montage with computer generated soundtrack overlay

ACTIVITIES

Infra Dance Company *Fall 2015 - present*
Member and choreographer of advanced contemporary dance company

Soulstylz Dance Company *Fall 2015 - present*
Member and choreographer for advanced hip hop dance company
PR and Social Chair (Fall 2018 - Spring 2019)
